A National Divorce Act

RECENTLY before a subcommittee of the senate judiciary committee it was urged by Senator Capper that a national divorce law, uniform in its operation, and an amendment to the constitution to make such law possible was a crying need of the times.

Senator Capper affirmed—and there is much proof in support of the claim that the flood of separations is a distinct menace to the family life. Five million women in organizations have petitioned for this government regulation.

The blight of divorce is over all the land. It is eating into the home life like a malignant cancer. Divorce is too easy. Too many separations are sanctioned by the courts, and the grounds for divorce and its procedure differ radically in the various states. In some commonwealths it is as easy to secure divorce as it is to make a purchase of any ordinary article of utility, or the reverse.

In her talk before the sub-committee Mrs. Florence White, an assistant attorney-general of Indiana, gave earnest support to the Capper-Fairfield resolution, indorsing its legal phases. She pointed to the alarming increase of divorce, saying: "I do not believe there are many thinking men and women in this country who have not come to see that one of our great social and moral needs is a federal marriage and divorce law. The statistics of the Bureau of Census show that there is one divorce to fewer even than seven marriages in this country."

"There is only one reason for this, aside from the natural and incontrovertible perversity of human nature, and that is the ease with which the unfit and the immature are permitted to marry. Divorce, as an institution, in itself is not an evil. In fact, since marriage is a partnership which, to fulfill its purposes, must be conducted in harmony and co-operation, there are times when it is an absolute necessity. But it is the abuse of divorce that has become an evil. And these two factors—marriage of the unfit and the abandon with which divorce is granted in some states—have contributed to the high divorce rate, which, if it continues will in time disintegrate the family life of the nation."

Judge Robert Grant of Boston gave his indorsement to the proposed federal law and amendment, but held that divorce cases should still be handled by state courts.

There seems to be no other way that suggests a cure for this menace, and the objections to it are neither profound nor convincing.

Coolidge And The Budget

PRESIDENT HARDING'S brief tenure of office was particularly distinguished for its work in accepting and continuing the budget system and a business organization of the executive departments. President Coolidge is giving evidence that this work is not to be lost or impaired under him in its already notable gains for economy in federal expenditures and administration.

The first effect of a budget paring of department estimates for a coming year has been to keep them continuing below the appropriations made by congress for the preceding year. These estimates for 1925 are \$180,000,000 under the appropriations for 1924.

The second effect has been the restraining influence operating upon congress in making appropriations. Appropriations for 1923 were nearly \$300,000,000 less than those for 1922. For 1924 they were \$116,000,000 less than for 1923. If the estimates are again followed, appropriations for 1925 will be \$180,000,000 below those of 1924.

This is why a surplus of over \$300,000,000 is now in sight for substantial tax reductions. It is why there should be another surplus next year after taxes have been reduced. It is the only reason why, for revenues on the whole have been declining and not increasing.

The manufacture of cigarettes has grown to be one of Hong Kong's most important industries. At present the factories in that city have a daily output of between 30,000,000 and 40,000,000 cigarettes.

Mr. and Mrs. John Alaback, of Salem, Pa., for Toronto, can they expect to locate in Canada?

Business was suspended in the departments of state, Columbus, this afternoon in honor of McKinley's birthday anniversary.

Two deaths from typhoid fever and 48 new cases were reported in Columbus Thursday. This is the largest number of cases reported in one day. More than 500 cases have been reported during the present month.

Russell McClann, aged three, son of Mr. and Mrs. Thomas McClann, north of city, was given a birthday party Thursday. About a dozen children under four years of age were entertained.

Atty. P. J. Mullins went to Wooster this morning to attend the funeral of Dr. W. W. Firestone, who was known in this city.

Mrs. and Mrs. E. B. Walker of Damascus, are the parents of a daughter. They are well known in Salem.

A patent has been granted to Harry P. Adams of this city, on a window curtain and shade adjuster which he recently invented.

Mrs. Jesse Hawley, 81, is slowly recovering from the effects of a bad fall which she sustained a week ago. Old fashioned February weather may break the threatened egg famine.

Imperial Palace Often Burned

The Japanese Imperial palace in Tokyo was originally finished in 1450 and for centuries was occupied by the shoguns, the virtual rulers of the country. It has been the residence of the emperor of Japan since 1868, but it has been so often destroyed by fire that the present structure dates only from 1888.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system, the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. Another kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

King Faud May Become Mohammedan Head.

King Faud of Egypt, although not a descendant of Mohammed, hitherto required in the spiritual head of the Mohammedans throughout the world, is said to be destined to become the Caliph, or head of the Church. When the Anglo Turks deposed the former Sultan and Caliph, they separated church and state. The final word as to the new Caliph rests with Mecca, holy city of the Mohammedans.

BILLION GAME FISH FOR U. S. STREAMS

Commissioner Asks States
To Help Protect Fish In
Spawning Season.

Washington, Jan. 29.—More than a billion game fish will be distributed in the rivers and lakes of the United States by the federal bureau of fisheries this year, Henry O'Malley, commissioner of fisheries, announced today.

Judging from statistics of the past year when 981,000,000 young fish were placed in the fresh waters of the country, Ohio, New York, Louisiana, Iowa, Maryland, Virginia, Wisconsin, Pennsylvania and Michigan will be the chief beneficiaries of the government stocking plan. Fish will be distributed in all states.

Unless conservation steps are taken game fish are threatened with extinction, according to O'Malley. He pointed out the automobile putting the best fishing grounds within the reach of the city nimrods, modern fishing tackle and other factors are contributing to thinning out of game fish.

O'Malley urged co-operation of the state governments to protect fish during the spawning season.

"There must be a size and bag limit and rivers and lakes must not be contaminated by sewage. The maintenance of fish in interior waters is a national asset. Since the disappearance of game, fishing remains practically the only sport left."

Critics Acclaim Tom Mix as Comedian in New Fox Production

Tom Mix scores one of the biggest hits of his screen career in his new William Fox offering, "Soft Boiled," which is showing at the Royal theater.

"This is the best picture Tom Mix has ever made," enthuses a New York critic.

"It has everything—fast action, thrills, romance, pretty girls, fun and attractive settings. As for the star, he shows that he is a real comedian in addition to being a stunt actor par excellence."

"Soft Boiled" is really Tom's official bow as a comedian. Dressed in a checker suit that isn't too modest to shriek for itself, with tortoise glasses, and a hat balancing perilously atop his head, Tom proves he's "soft-boiled" by getting a job as a shoe clerk. Then the fun and the action race along in full force and he doesn't slacken for a moment until the final happy close-up.

"Skyrocketing" the Price of Chairs. Everyone knows how exorbitant the prices of genuine antique furniture frequently are. The purchasers are generally rich and don't often dispute the price, and the supply is rarely equal to the demand. In a recent court case, says London Opinion, a witness who was a furniture dealer testified as follows:

"In October, 1920, I went to Sudbury hall, Lord Vernon's place in Derbyshire, to bring to town ten Chipendale chairs and two settees that we had bought. In a few days we sold them to Messrs. Dighton."

"What did you pay for them?" asked the examining lawyer.

"About six hundred pounds."

"How long was it before you sold them to Messrs. Dighton?"

"About six weeks."

"For how much?"

"One thousand four hundred pounds."

"And then they were sold to Mr. Shrager for three thousand pounds. What do you suppose Lord Vernon would think of that—a profit of two thousand four hundred pounds the dealers made out of his chairs in a few weeks?"

What indeed!

ENGLISH CONSIDER NATIONS MEETING

Cabinet May Ask U. S. And Other Nations To Talk Reparations, Debts.

London, Jan. 29.—Advocacy of summoning a great international conference to discuss reparations and war debts was discussed by the cabinet today.

If such a conference is arranged it is certain the United States would be invited to join. The question so far is in a nebulous state and has not proceeded beyond the stage of formal discussion.

In addition to reparations and debt issues the cabinet discussed plans for recognition of the Russian soviet government by Great Britain and admission of Russia into the league of nations.

Premier MacDonald is one of the strongest supporters of the league in Europe. He is attempting to conduct a great deal of England's foreign business through league agencies.

BRITISH STRIKE SETTLED TODAY

Normal Train Service Is Being Restored As Men Go Back.

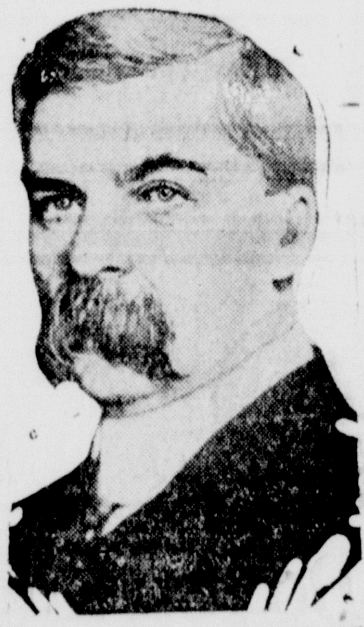

London, Jan. 29.—Normal train service was slowly being restored throughout Great Britain today following the settlement of the strike of locomotive engineers and firemen. Large numbers of strikers returned to work during the morning.

The settlement was announced at 4:45 o'clock after a seven hour conference between representatives of the strikers and railway companies. The settlement was largely due to pressure exerted by the Labor government.

This was the first victory for Premier MacDonald's cabinet. The government acted through the trades union congress which has been meeting daily since the strike went into effect a week ago Sunday.

It was stated that the terms of settlement would be announced later.

Senator Walsh Suspects Atty.-Gen. Daugherty

"Let Them Have Their Way. Some ladies presented a small symbolic statue to their community."

Space was allotted in the courthouse grounds, but when the figure was set up it did not face the courthouse. The lawyers declared the statue should be turned around. The ladies said they had no objection to its facing the courthouses, but announced firmly that it would not be turned around. Whereupon the question was put up to the mayor.

"Whatever the ladies want they shall have," decreed that worthy. "We'll just move the courthouse."

Motorman, Risking His Life, Rescues Forlorn Puppy

A little forlorn looking puppy by the name of Spot owes its life to William J. Wallace, motorman on the Stark Electric interurban car that leaves Salem at 10 a. m. each day.

This morning Wallace was beginning his run to Alliance and was running at a fair speed up the long trestle over the Pennsylvania tracks.

As the car neared the top of the incline Wallace, a true lover of pets, noticed a small dog frantically trying to avoid the onrushing car.

At this point the steel-girded top of the trestle starts and the girders are not close together. The little dog, bewildered, was not able to make the long jumps to each girder and suddenly stopped in the path of the car.

Wallace immediately applied the brakes stepped out on the trestle at the risk of his own life, as ice coated the steel, making every step perilous.

Walking several feet Wallace picked up the pup, shaking with fear, patted it several times, and wrapped it in his overalls coat, placed Spot by the heater in the car, and went on unconcernedly.

Passengers on the car, and the large crowd of interested persons who watched from below, all expressed the belief that it was almost impossible to walk far on the ice covered

"Buy Now Pay Later"

Did you ever stop to think that all our business is done on a credit basis? You use as much electricity as you want this month and pay for it next month. Every customer on our books is a charge customer.

Business men know what it costs to carry accounts. Many merchants who do a large extended payment business charge a small fee extra for this convenient service. But a public utility must count the extra expense as part of operating costs.

While you get credit from us, we have to pay cash for many commodities in order to buy at a price or to get the supplies at all. It takes a vast sum of money to swing a business on this basis. Sometimes it's all outgo and very little income.

The balance of the oil list with the exception of Marlan, which lost over 1 point to 3 1/2, were steady, with small fractional changes.

Steels were firm, rails were inclined to heaviness. A majority of the leading industrials were weak. General Electric dropping 1 1/2 to 21 1/2.

SECRETARY DENBY DEFIES ACCUSERS TO PROBE GUILT

Will Not Resign And Would Lease Lands Again If Occasion Arose.

Washington, Jan. 29.—Secretary of the Navy Denby today defied his senatorial accusers to find him guilty of any crime of an official action, which would warrant his resignation from the Coolidge cabinet.

Denby, announced following the cabinet meeting this afternoon that his resignation had not been submitted to President Coolidge despite talk at the capital of impeaching him for his part in the leasing of naval reserve oil lands in California and Wyoming to the Doherty and Sinclair interests, and that he had no intention of resigning.

If the leasing of naval oil lands should again come before his department, Denby said, "he would do it all over again."

"I want a record vote in the senate," he declared, "So I may determine just what senators will stand up and vote to besmirch and disgrace the name of an American citizen, who is guilty of no crime and who has never been convicted or charged or tried in any court."

"In or out of office, I am always available for examination and trial," Secretary Denby's statements, the first he has made since the Teapot Dome scandal broke on the floor of the senate was given verbally as he was leaving the White House after the cabinet meeting and at the end of a long discussion of the oil leases by the president and the members of his official family.

When his attention was called to the fact that a definite move in congress to force him out of the cabinet was imminent Denby said:

"I did not place my resignation at the disposal of the president at the cabinet meeting today and I have absolutely no intention of resigning."

"In my opinion I did the right thing while of course, in view of recent developments that is something for the court to decide. If I had to I would do it all over again tomorrow."

"I am convinced of the legitimacy of the leases. They are absolutely to the best interests of the United States."

"There should be no misapprehension about Assistant Secretary of the Navy Roosevelt. He is absolutely in the clear."

SALEM RUBBER CO.
SETS RECORD; TO
INCREASE OUTPUT

tire, and will outwear the regular cord tire.

Six Months Orders Ahead

This new product for which there are orders on the company's books to keep the balloon tire department busy for the next half year, is made so that it fits the ordinary auto without any special rim. A 20x3 1/2 balloon tire has a cross section of 4.40 inches. A 35x5 tire has a cross section of 6.60 inches.

Although a high quality tire, the Salem Rubber Co. will be able to sell it at just a small fraction more than the cost of an ordinary cord tire. It is expected that in the next year the demand for this particular tire will be enormous. It is the pride of the factory and is being pushed by the company.

Tires are a product that, if good, find an unlimited field. Realizing this E. A. Tinsman, president and general manager, came here from W. Loughly and with others in the fall of 1921 purchased the plant, the lease of which was held by the Ideal Rubber Co., at that time, having previously been operated by the Porter Rubber Co. from April 21, 1916.

Mr. Tinsman took active charge of the Salem Rubber Co. and ordered a product turned out that would take the buyers off their feet with the high quality. This has been the ideal of the company, and into each tire goes workmanship and material of the highest order.

Never, President Tinsman tells his employees, should the product be slighted in favor of production. Careful examination of each tire, with special emphasis on new ideas that buyers want, are two things that have made the Salem Rubber tires well known all over the country, and are now regarded as one of the leading quality tires in the United States.

How Tires Are Made

Let us take a peek at the inside of the plant and observe the movements of the workers and the material with which they fashion a tire. To begin with four kinds of rubber are used, three kinds coming from Singapore, East Indies and South America, and the reclaimed American scrap rubber. Rolled brown crepe, amber crepe and smoked sheet rubber are the kinds imported.

These rubbers are mixed with different pigments and coloring, as the automobile tire is but 60 to 70 per cent rubber, the rest being the fabric and pigments.

The cord fabric is unwound from rolls through a calendar which coats the fabric with rubber. This rubber coated fabric is then cut on the bias by a large machine. Workers then put together six pairs of bias strips and this forms the cord fabric of the tire.

This fabric is fashioned over a core that revolves on a tire making machine, replacing the old slow hand process. A skilled tire maker molds the tire, places the tread on it, and places the beads along the side, these

beads being made of braided bead wire and covered with rubber to which the rims must clamp.

This tire is then put in the molds and vulcanized under 40 pounds steam pressure, or 900 to 1,000 pounds hydraulic pressure. After a certain length of time the tires are taken off and finished by girls who are experts in putting the final touches on the tires that go to Maine, to California, to New Orleans and to Nome.

Order Books Filling Up

About 75 persons do all this work now in two shifts.

Business is good. The Salem Rubber Co. is expecting its greatest year. The Salem Cord Tire has made a name for itself that has put on the company's books thousands of satisfied customers.

Those are a few of the points brought out by Superintendent Copley. He says: "Our order books are filling up and we are proud of our record. By making a high class quality tire we have brought our business up in about two and a half years to a point where we will soon be calling the plant a million dollar sales concern."

To sell that much on quality we believe presages banner years ahead. Our balloon tire has taken the conglomeration of the world by storm."

The Salem Rubber Co. deals through big distributors mainly. Marshall Field & Co., in Chicago; John Wanamaker in New York and Philadelphia; William Taylor & Co. Cleveland; and Boggs & Buh, Pittsburgh, are some of the high grade department stores that sell thousands of the tires and guarantee them in addition to the company's guarantee, showing their faith in Salem Cord Tires.

Locally the company, through Salem stores, sells a large number of tires. One Salem man purchased a set of four tires last year, ran them 25,000 miles, and then started to California with the tire showing but a trace of wear.

SYRUP PEPSIN
And so do the children

Some Families Are Never Ill

FORTUNATE are the children whose parents fully realize the seriousness of constipation. Hospital records prove that 75 per cent of all disease originates in bowel obstruction, or constipation. Young children cry because of it; school children are hampered in their studies; grown people are made 25 per cent less efficient; elderly people's blood pressure increases 28 per cent. Realizing this Mrs. Carrie Moss of 1714 Church st., Lynchburg Va., Mr. Louis C. Grahl of 1569 Winton ave., Lakewood, Ohio, and innumerable others, give a spoonful of Dr. Caldwell's Syrup Pepsin at the first sign of constipation, and have no sickness among their children.

10 Million Bottles a Year

Use it once and you will never again take coal-tar drugs in candy form, calomel or salts. Dr. Caldwell's Syrup Pepsin is a vegetable laxative free from opiates and narcotics. It can be safely given to infants, yet it effectively moves the bowels of adults. It acts gently; does not cramp or gripe. Keep it in the house and use it for any indication of bowel obstruction such as constipation, biliousness, torpid liver, dyspepsia, pimples and like skin eruptions. Give it early and it will break up a fever or a cold overnight. A spoonful proves it.

"New" Mary Pickford Big Attraction

MARY PICKFORD as the street singer in "ROSITA"

Seldom has there been shown such pronounced interest in any photo-play yet presented at the State theater as that evinced by the audience crowding to see Mary Pickford in "Rosita." This United Artists attraction is creating more discussion and bringing a most diversified patronage.

It is perhaps the combination of a favorite star in an entirely different role which is making this screen event so notable, but it is also certain that Miss Pickford in a portrayal of a growing young woman has greatly enhanced her triumphant histrionic ability, which has had this marked effect in intensifying the public interest.

Leaders Retain Places In Masonic Bowling Meet

Low scores comparatively featured last week in the third frame of the Masonic bowling tournament on the temple alleys.

Harroff was the only player to roll a perfect game above that in the second game against No. Two team. There were only two men above 100, which is also unusual. However the tournament leader, with a high score of 238 getting but 195 as his highest in the week. Others rolled as follows: Wernet and Menzel 199; Kauderer 131 and Toerton 185.

Team One took two games of three from Two, getting the first two, and a bonus Two the last one.

Team Four stood heads up with three straight over Six, and retained its lead in the team standing.

Team Five took two of three from Three.

Last week the old pins were discarded and this slowed down the scores somewhat.

Washington, Jan. 29.—The Department of Commerce announces, for the state of Ohio, its preliminary estimate of the value, Dec. 31, 1922 of the principal forms of wealth, the total amounting to \$18,472,316,000, as compared with \$9,011,623,000 in 1912 an increase of 105.9 per cent. Per capita values increased from \$182 to \$2,015, or 1,107 per cent.

All classes of property increased in value from 1912 to 1922, except livestock which decreased from \$273,612,000 to \$224,788,000, or 17.9 per cent. The estimated value of taxed real property and improvements increased from \$4,817,406,000 to \$9,239,562,000, or 91.8 per cent; exempt real property from \$356,302,000 to \$824,335,000, or 132.8 per cent; farm improvements and machinery from \$51,181,000 to \$86,777,000, or 69.1 per cent; manufacturing machinery, tools and implements from \$423,000,000 to \$1,320,529,000, or 214.5 per cent and railroads and their equipment from \$821,506,000 to \$1,039,197,000, or 26.8 per cent. Privately owned transportation and transmission enterprises, other than railroads, increased in value from \$584,793,000 to \$737,325,000, or 26.3 per cent; and stocks of goods, vehicles other than motor, furniture, and clothing from \$1,679,755,000 to \$4,569,330,000, or 171.5 per cent. No comparison is possible for the value of motor vehicles, which was estimated in 1922 at \$324,733,000, because no separate

estimate was made in 1912. In making these estimates the department followed in general the methods employed in making the estimates in 1912, although it is believed that in some respects the work has been more thorough. It should be borne in mind that the increase in a very large measure is due to the rise in prices which has taken place in recent years, and so far as that is the case they do not represent corresponding increases in the quantity of wealth.

Youngstown Pastor Speaks At Meeting Of Colum- biana Methodists.

Columbiana, Jan. 29. — The cold weather had a decided effect on church activities Sunday, Rev. C. S. McGrath, pastor of the Presbyterian church, was unable to fill the pulpit on account of sickness.

The regular services at the Christian, Grace Reformed Lutheran and Methodist churches were held with reduced attendance.

One special meeting was held, that being the Men's meeting at the Methodist church at 2:30. Dr. W. E. Hammaker, of Trinity M. E. church, Youngstown, being the speaker. Old fashioned songs were sung and the men joined in the singing with spirit.

This meeting was held in connection with an evangelistic meeting that the pastor, Rev. G. W. Peters, has been holding for the last two weeks.

Wrs. William Lauten of Youngstown, attended the meeting of the Lutheran club on Thursday afternoon in Columbiana.

Mrs. John Zimmer, who fractured her right arm, is resting as comfortably as can be expected at her home on the Lisbon rd.

Wright Plant Fire Does Little Damage

Lisbon, Jan. 29.—A spark from an empty wheel flew into a vat containing paint with which gasoline had been mixed Monday afternoon, and caused a slight fire in the No. 1 plant of the Wright Manufacturing Co.

Flames shot to the roof of the building, and while several streams of water were played on the vat by the company employees, not until the chemical machine of the Lisbon fire department was used, were the flames extinguished. The damage to the plant was slight.

A factory is being built in San Diego for the production of gelatine products from seaweed on a much larger scale than heretofore has been attempted.
